

ACMI • TECHEX 2026 • AGENT WORKFLOWS • ENTERPRISE DATA • VEEA

ACMI: The Universal Memory Layer for AI Agents.

Three keys per entity. One memory protocol.
Every framework. Every model. One audit trail via Veeva Lobster Trap.

VEEA • GEMINI • LABLAB.AI

What did the agent **actually** do?

The question every enterprise security review asks — and the one a multi-framework stack can't answer today.

Three frameworks. Three **audit gaps**.
